www.lukasnursery.com

Your yard is a beautiful investment you will enjoy for years to come. Visiting Lukas Nursery will help you plan the look you want to achieve. Take time to browse through our wide variety of plants. Our signs will educate you about each plant and its environment. Have fun and explore the possibilities. Note which plants appeal to you and how you can incorporate them into your landscape design. Then on the back of this sheet, sketch your property or desired area you wish to enhance (spot landscaping, entrance, patio, pool, focal bed, etc.). Include trees and existing sidewalks, driveways, etc. This will help us to help you, should you need further assistance.

I LIKE THESE PLANTS...

Trees

Shrubs

Groundcovers

Borders

Flowering Plants

Topiaries/Focal Plants

Potted Plants, Pottery
